

About The Photographer

I am Debi Crowder. I received my current camera, a Canon Rebel XT, for Christmas in 2006. That is when I started to take photos as a hobby. I found that I enjoyed photographing sports mostly.

During football season last year I started to take photos of my son when one of the coaches asked if I could take them of the team. I did, and it was a lot of fun. The team enjoyed it also.

I followed the Football season with photographing the Middle School Wrestling and Track programs as well.

I then took a photography course at UC's Communiversiy, Digital Photography II, this summer and intend on taking the Sports Photography class next summer.
